

Sunrise at

Mt. Leconte

Sunset at

Memphis TN

Join us for a fun filled ride to view the impressive sites on both ends of the great state that we live in.

We will meet (tentatively 4:30 am) at the Dealership on July 13 and ride to Mt Leconte in the Smoky Mountain National Park. We will enjoy the beauty of the sunrise coming up over the western North Carolina mountains and then mount up and head west.

In heading west, we travel on non-interstate roads as we traverse the entire state. We will have scheduled "recycle stops" as well as fuel stops. While traveling we will snack along the way but will schedule a lunch stop to get inside, recuperate, and fill our stomachs before we set out for the rest of the ride.

At the end of the first days ride we will end with a Kodak moment at the Mississippi River in Memphis. After the sunset pictures are complete, we again will mount up and travel towards Tunica MS.

We will spend the night in/around Tunica and those inclined to do so might visit a casino or two.

The following morning, we will saddle up once again and ride to Mississippi Blues Trail, Tunica, MS a 10 for 24 HOG ride.

After pictures we will turn our focus to the East and ride the quickest way back home (Interstate)
